

Assembly Instructions

1. Have your students color the worksheet & cut out the pages.

2. Align the 3 pages on top of one another onto the main worksheet & staple together.

3. Your flipbook is now ready to use.

Use the blank cards to personalize your flipbook to make the words meaningful to each student.

Use the circles at the top of each page to record correct repetitions of the target word.

Once the student completes the book, you have proof of **5** repetitions of each word.
