I can produce the r sound.

**DISCLAIMER:** This pack is produced as a resource intended for use by Speech Language Pathologists or Speech Therapists. It does not replace consultation or treatment provided by a fully qualified / registered / certified clinician. Parents and caregivers who are concerned about their children's Speech / Language development should first seek out the services of a qualified professional in your own area.

**THANK YOU** for downloading this resource. If you have any questions or comments I would love to hear from you.

**By downloading this resource, you agree to the following:**

You may use this resource for personal and / or classroom use only.

In order to support us, we ask that you always acknowledge [www.teachingtalking.com](http://www.teachingtalking.com) as the source of the resource. If you love these resources, why not let others know about Teaching Talking?

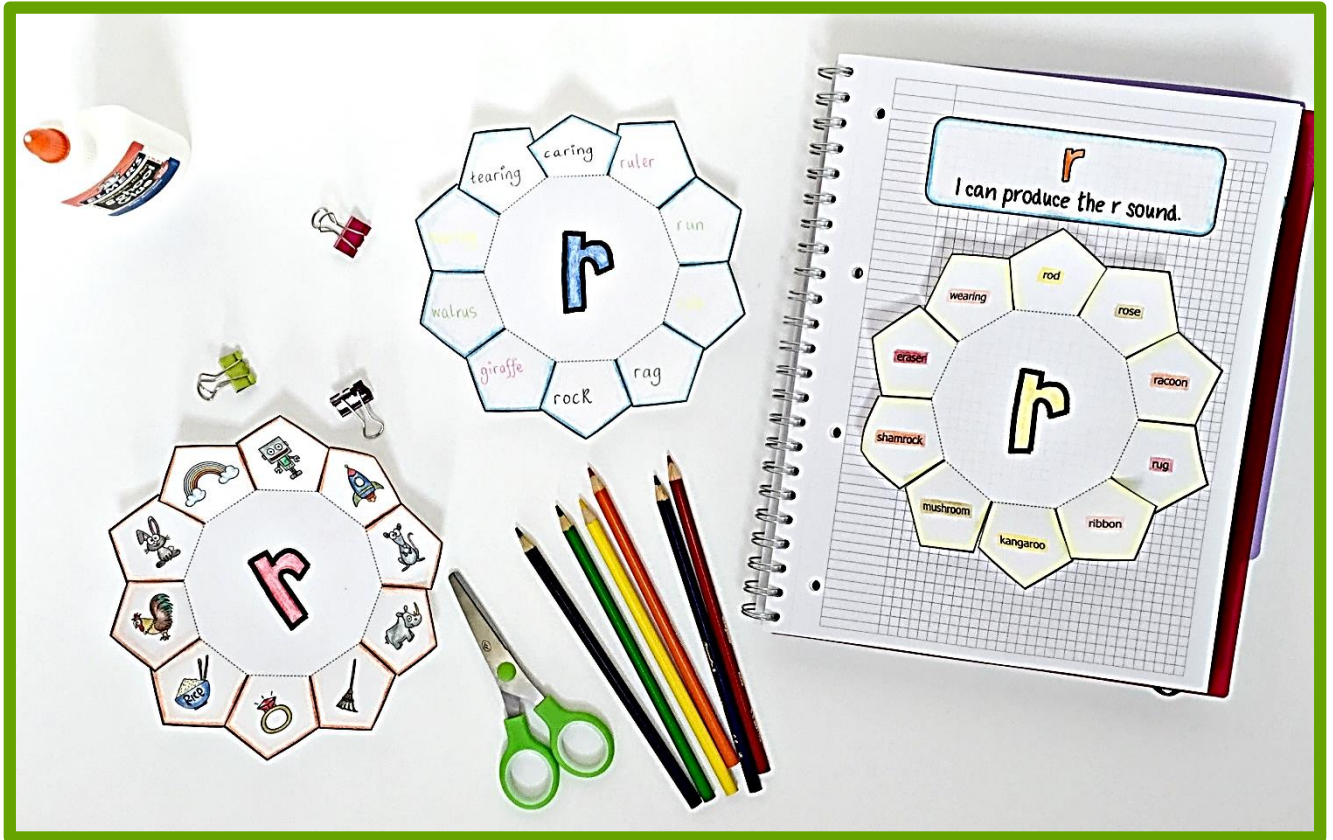

You must not reproduce or share this resource with others in any form. They are more than welcome to download the resource directly from us.

You must not host or in any other way share our resources directly with others, without our prior written permission.

We also ask that this product is not used for commercial purposes, and also that you do not alter the digital versions of our products in any way.

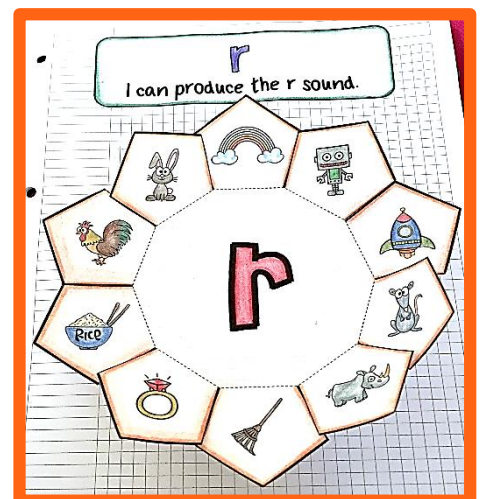

# Get In A Quick 10

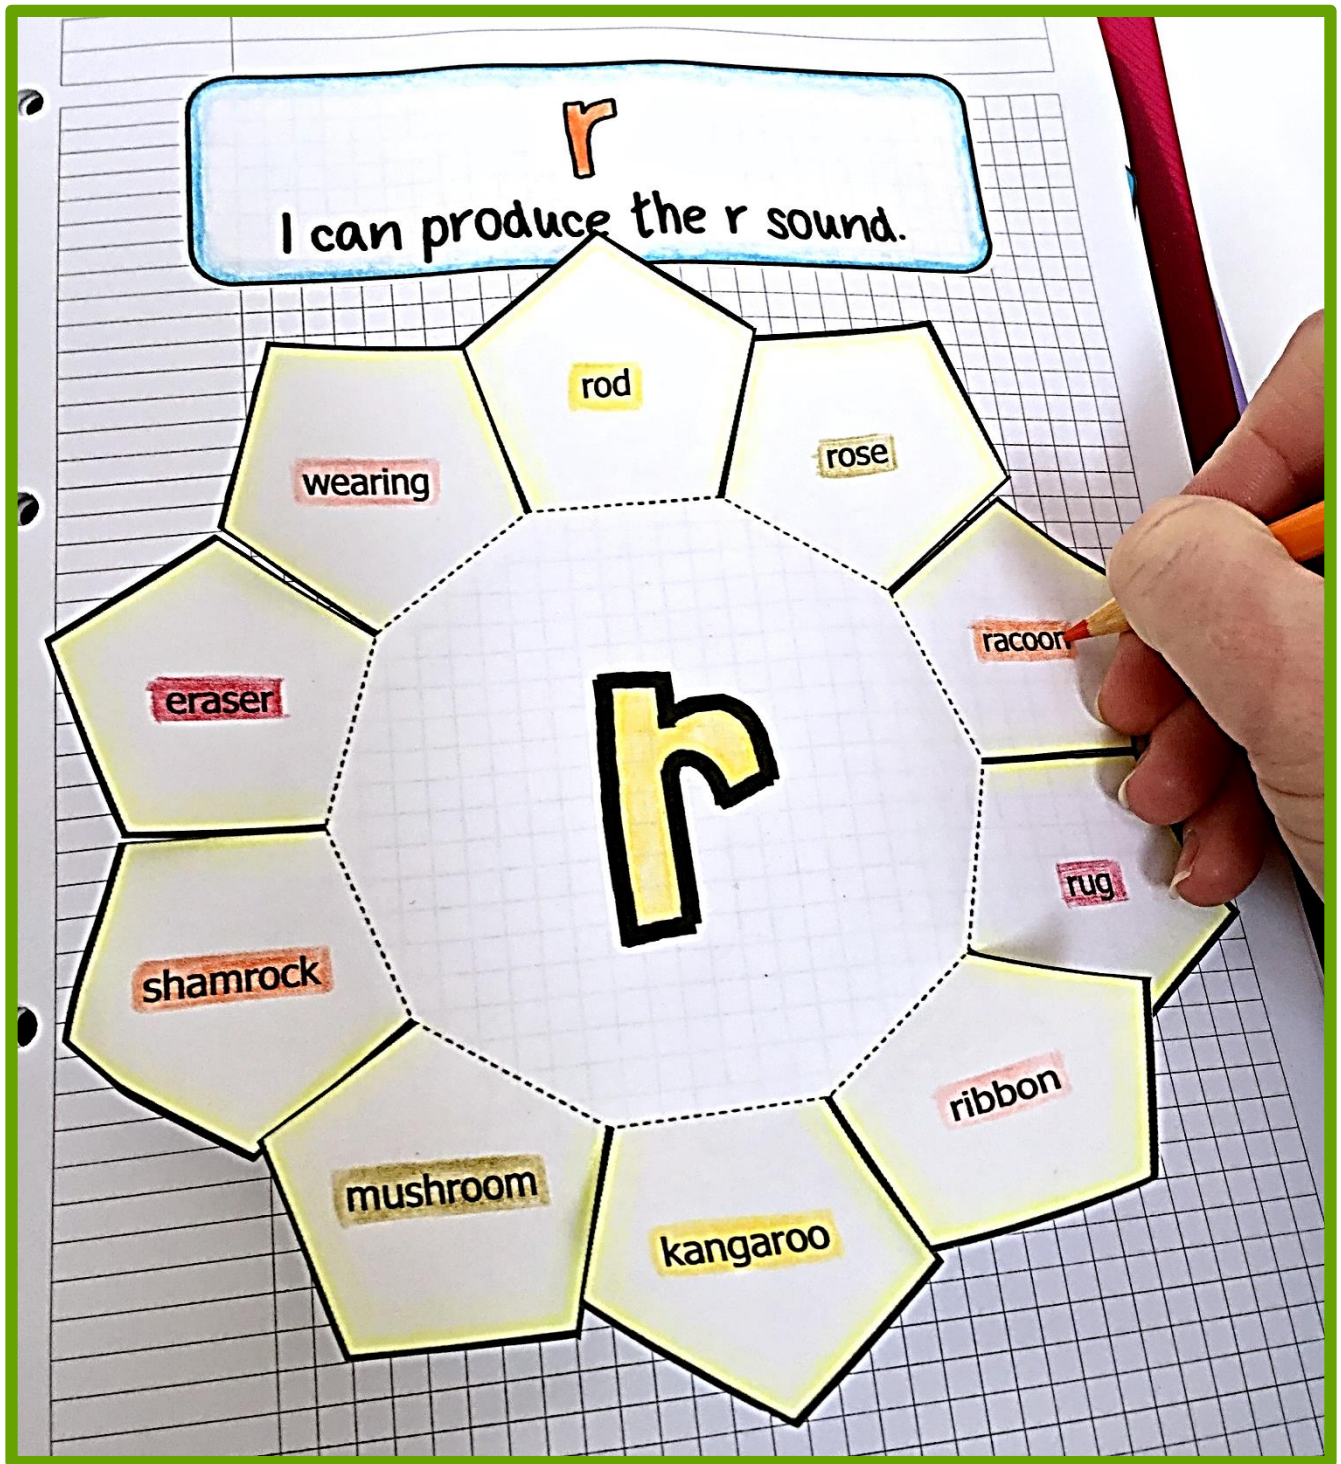

This quick activity is a fun and interactive way to elicit multiple repetitions of target articulation sounds. Each grid houses 10 spaces to make tracking Speech progress a breeze.

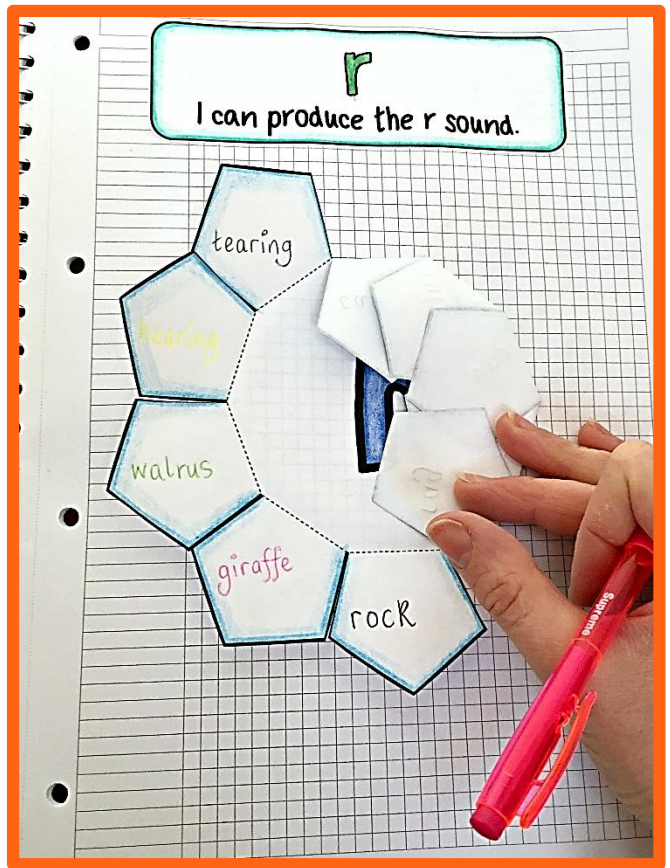

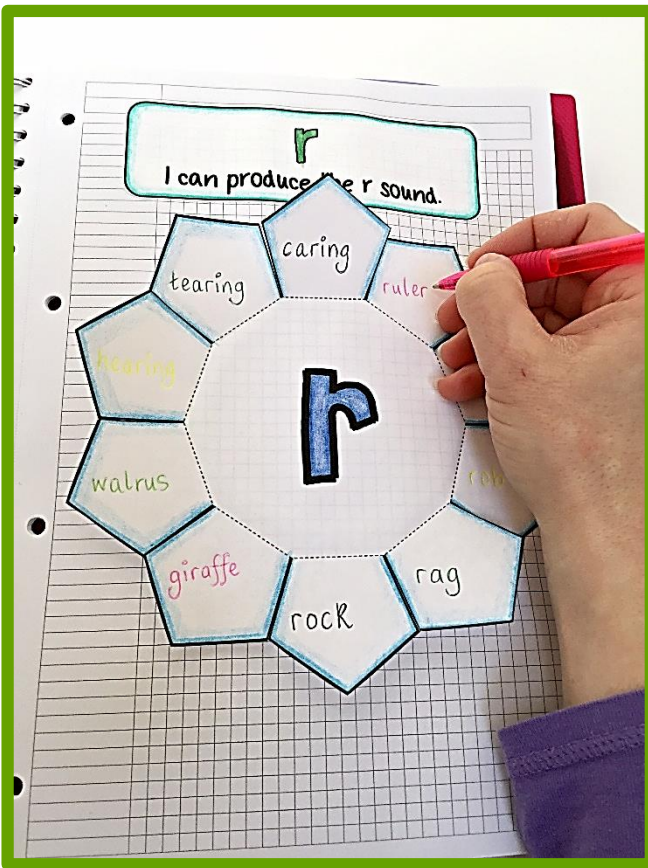

**There are several ways that you can use these templates.**

The page with mini-images can be used for non-readers....

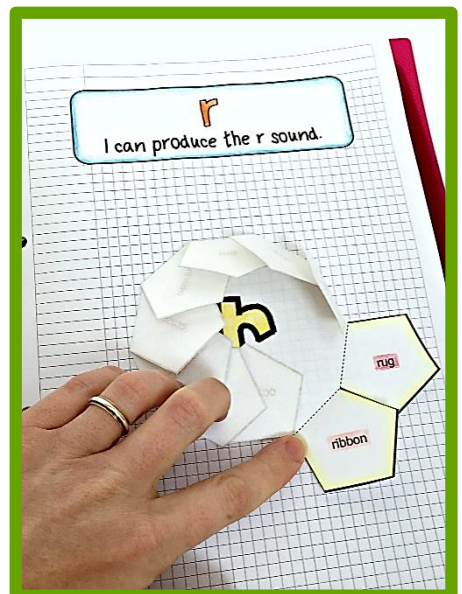

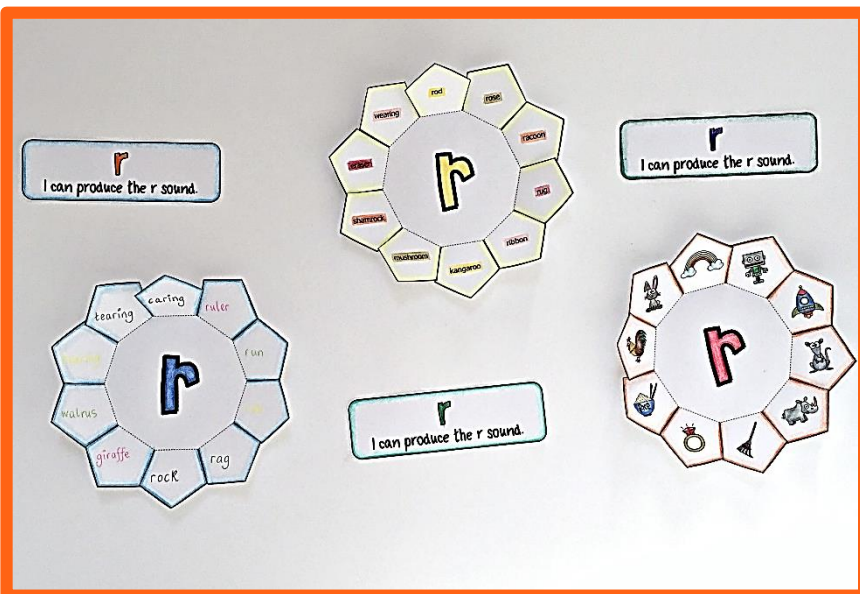

For older students use the editable file to insert your own text. The font used on that page is called "Tahoma".

To assemble your project, cut along the solid lines and glue down the center section only into a notebook. Then fold the flaps inward to create a flower petal effect as your student practices.
