

Speech Notebooks Caregiver Instructions

I am very happy to have _____
in Speech & Language Therapy.

While addressing difficulties with speech, it is important that your child is practicing not only in Speech, but in the classroom and at home as well.

I'm excited to tell you that I will be putting an exciting new twist on things by introducing your student to Interactive Speech Therapy Notebooks.

We will be filling a standard sized composition book with fun interactive activities that make practicing language feel like play. Best of all they will be designed so that you and I can join in on the fun too!

Please ensure that your child has his/her Speech Notebook in their backpacks on days that they have Speech Therapy. Your student comes to my class on _____.

I think you will find that your child will love showing off their creations to you! I will leave notes throughout to help direct you through the lessons so your student gets plenty of practice at home.

Thank you for your help on this project and mostly for all that you do at home. We can't wait to show you how much progress we're making!

Speech Notebooks Caregiver Instructions

I am so proud to see how much progress

has made in Speech & Language Therapy this year.

While addressing difficulties with speech, it is important that your child is practicing not only in Speech, but in the classroom and at home as well.

As you know, we've been filling our Speech Therapy Notebooks with fun interactive activities that make practicing language feel like play.

Please use the notes provided throughout the notebook to help your child practice their targets over the school break. We want to make sure he/she has "good speech" in all areas of their lives!

Thank you for your help on this project and mostly for all that you do at home. Your child is going to love showing you how far they've come!
