

1. Personalize,
Print & Cut

2. Layer

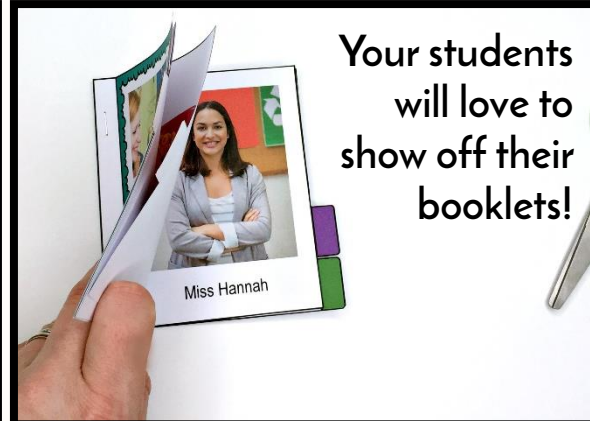

3. Add Cover

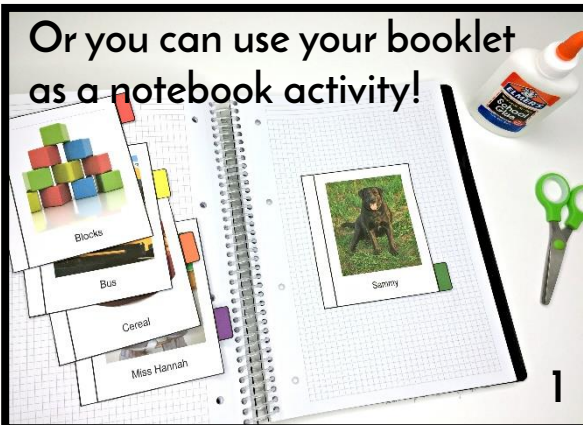

4. Staple

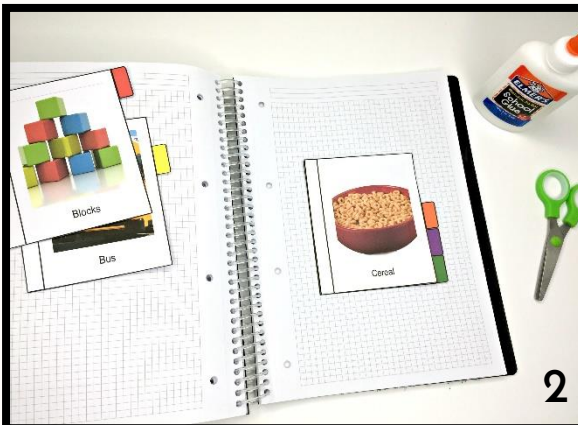

5. Enjoy!

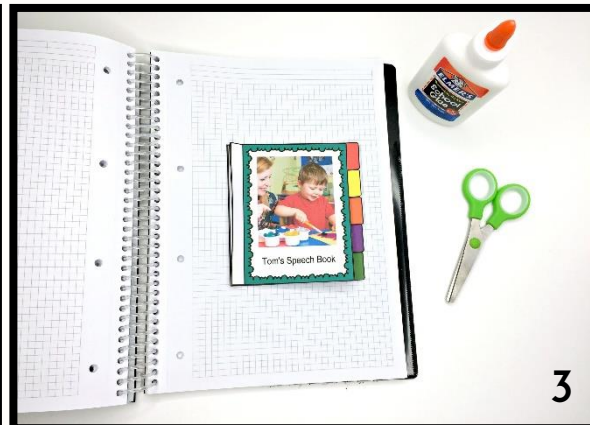

Your students
will love to
show off their
booklets!

1

2

3

Or you can use your booklet
as a notebook activity!

Using the Editable PDF ** you will need the [FREE Adobe Acrobat Reader](#) to edit this file*

1. Clicking on the image icon on each page will bring up a "Select Image" dialog box.
2. Click "Browse" and navigate to the place on your computer where your images are saved. Select an image and click "OK" to easily insert your students' photographs into the booklet.
3. Click where it says "Insert Your Text Here" to add the student's name to the cover. Repeat this step on each page with a short description of the image shown.

SLP Tip: If possible, take the photos you intend to use in a portrait orientation (up & down photo style) vs landscape orientation (left & right photo style) so your student's favorite things appear larger on each page. You can use the provided take-home sheet to explain this if you plan to ask caregivers to capture the photographs.

Assembly Instructions

1. Cut out each shape and layer the pages by number with 1 being the first page you lay down, then 2 on top, etc.
2. Add the cover with your student's name and picture on top and staple the book together.
3. You can also use this flipbook as a notebook activity by gluing page 1 down first. Then layer the others on top securing with glue as you go.
