

1. Personalize, Print & Cut

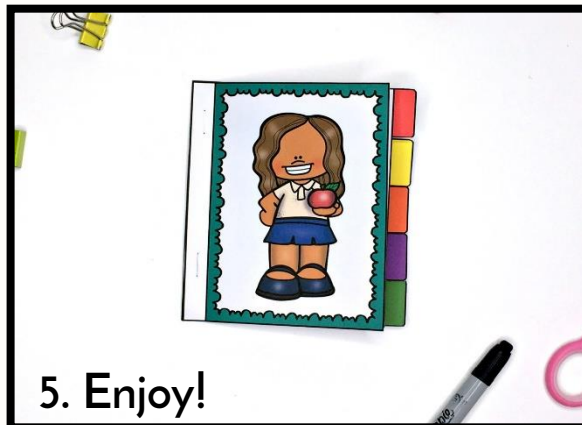

2. Layer

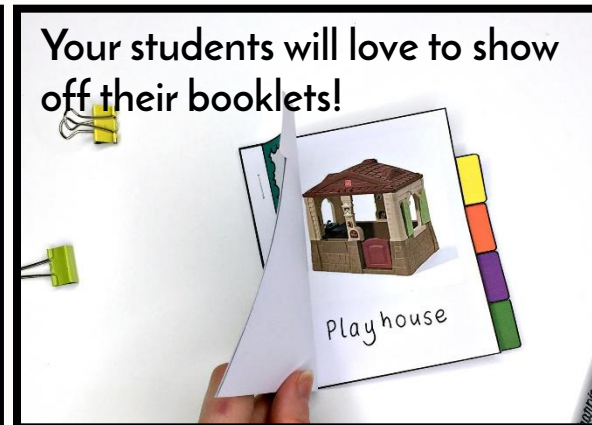

3. Add Cover

4. Staple

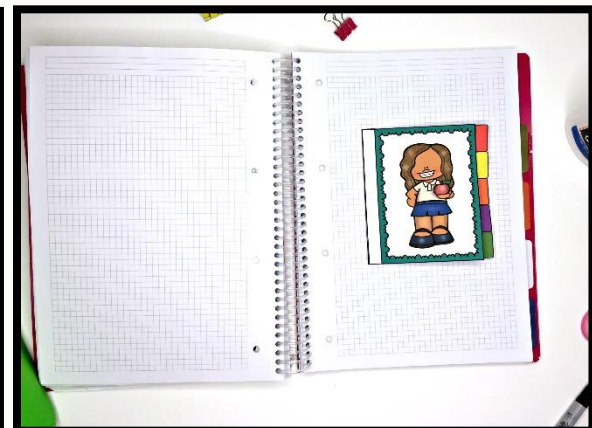

5. Enjoy!

Your students will love to show off their booklets!

Or you can use your booklet as a notebook activity!

Using This Template

1. Select 5 photos or images that are important to your student and glue them onto the pages of your brag book.
2. Write the word underneath the picture.
3. Select a cover (girl/boy) and follow the Assembly Instructions.
4. You may also choose to use the editable template to easily insert the images into the booklet directly from your computer.

SLP Tip: If possible, take the photos you intend to use in a portrait orientation (up & down photo style) vs landscape orientation (left & right photo style) so your student's favorite things appear larger on each page. You can use the provided take-home sheet to explain this if you plan to ask caregivers to capture the photographs.

Assembly Instructions

1. Cut out each shape and layer the pages by number with 1 being the first page you lay down, then 2 on top, etc.
2. Add the cover with your student's name and picture on top and staple the book together.
3. You can also use this flipbook as a notebook activity by gluing page 1 down first. Then layer the others on top securing with glue as you go.
