

Targets /s/

Send the Snakes Home

Practice target consonant /s/ as your student sends the snakes home to their tank in this engaging activity.

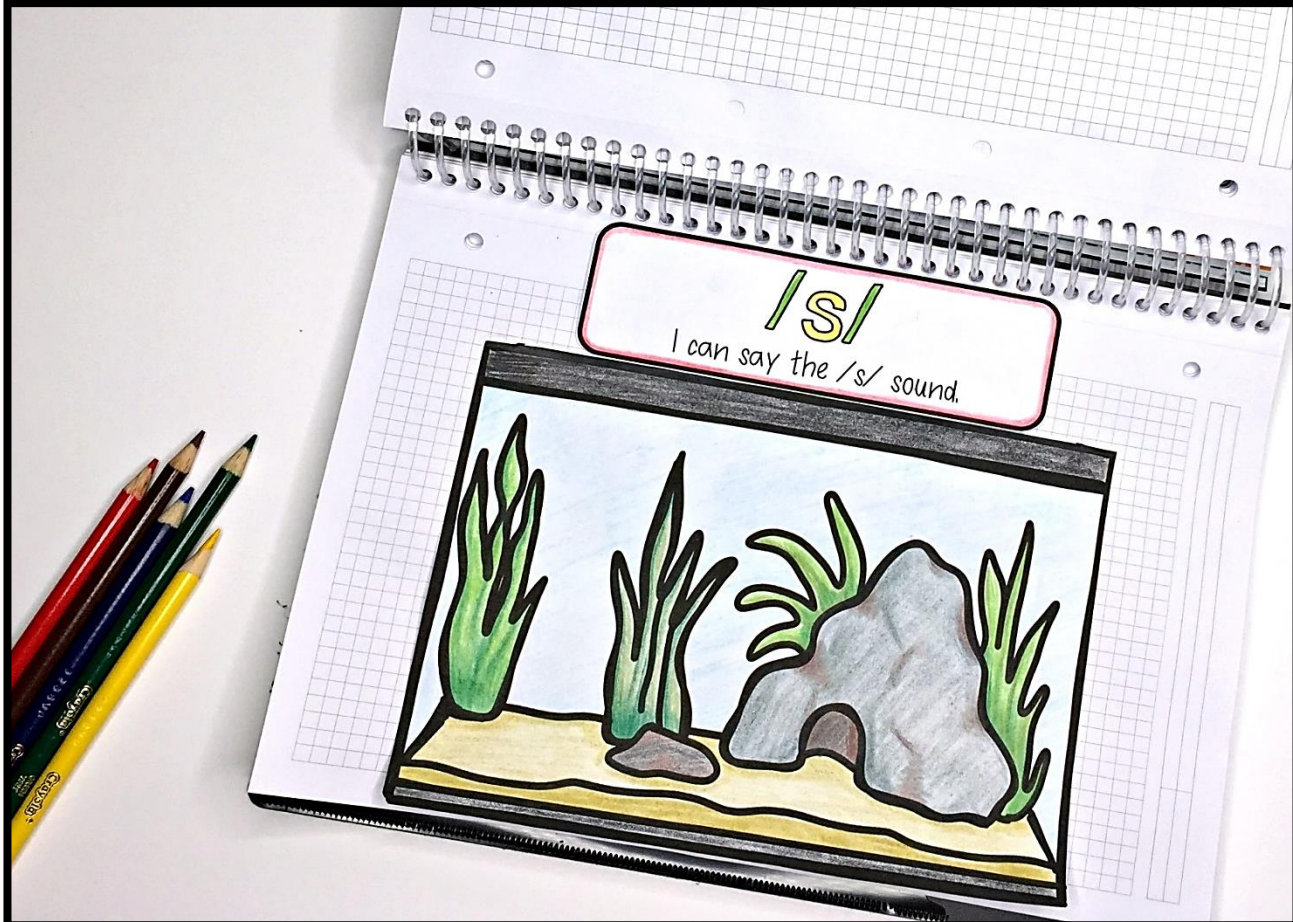

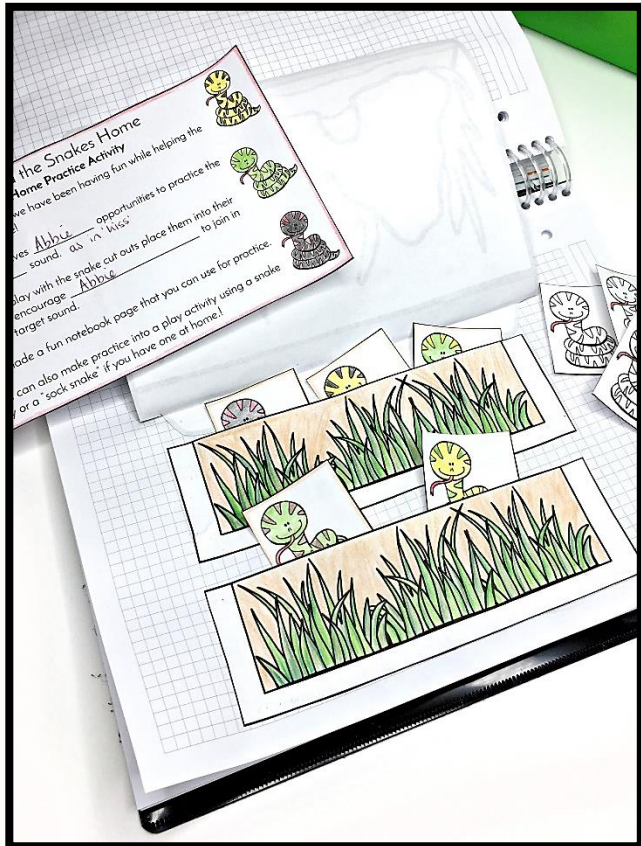

Construct the notebook page as pictured to create your baseboard.

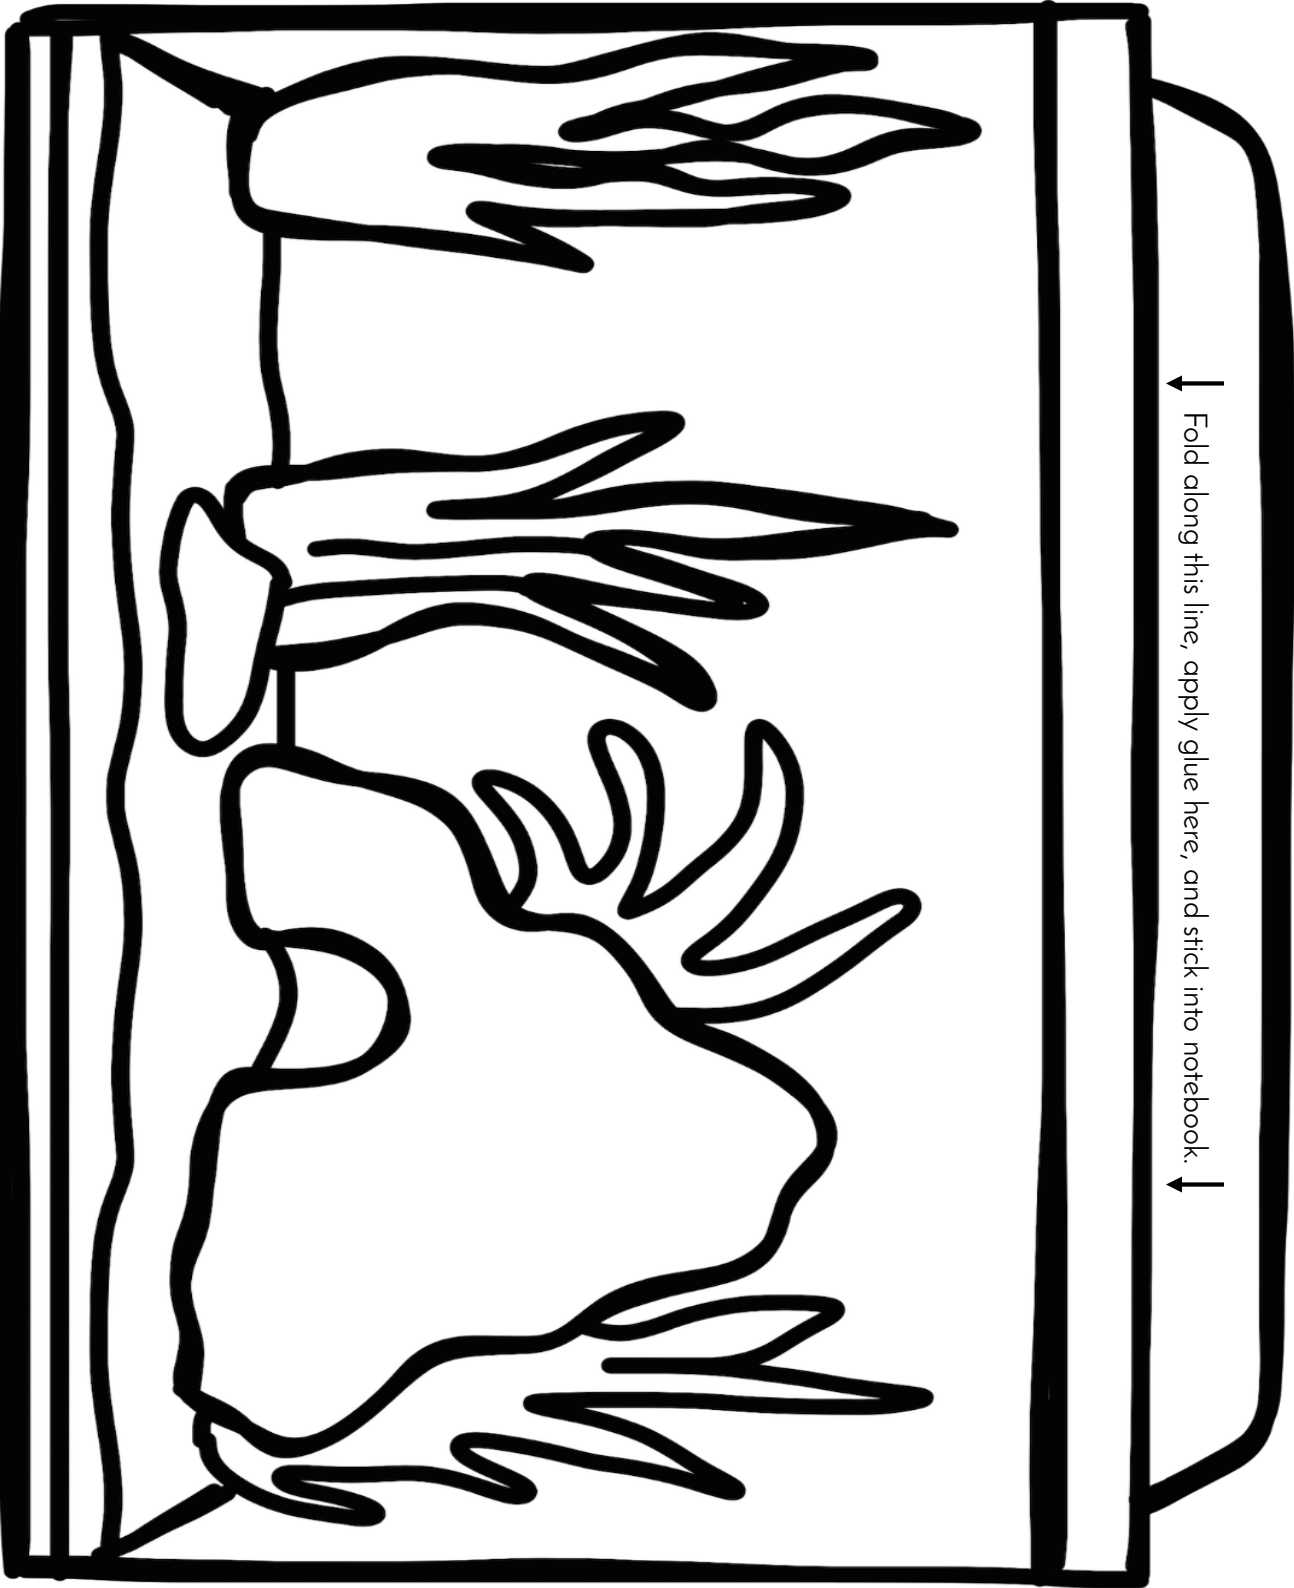

Cue your student to practice “sss” as they place each snake into a pocket under the tank flap.

Place the notebook page and snake cut outs in front of the student. (You may choose to use a soft snake toy or a “sock snake” if you have one available.)

Encourage pretend play scenarios by narrating for the student. For example you could say, “The snake is ready to go home. Let’s put him in his tank.”

Your student places the image of the snake into the “grassy” pocket whilst practicing /s/ until all the snakes are safe in their home.

Targets /s/

After your tank flap is created, glue these pocket strips underneath by applying a small amount of glue around the edges.
