

# Assembly Instructions

1. Print and cut out the notebook page and word strips. It is suggested that you print on card stock so the flaps do not get torn off as the child interacts with his/her notebook.
2. Glue the page into your notebook
3. Fold the word strips at the dotted line and apply a small dot of glue to the back of the small square portion of the flap. Affix the word strips to the appropriate spaces on the board.
4. The flaps open to reveal the matching image on the notebook page.
