Dear Members,

Welcome to the June Edition of "Notebooker's Nook", our monthly magazine for Club members. Even during a typical school year, when Summer rolls around, our SLP members have such different needs...

Typically in June, with some schools finishing up for Summer and others in a year-round system, the materials you use can be very different.

This year of course, we have a whole different dimension to consider with school closures, distance learning, and digital therapy.

Last month I sent all members a survey email, and thank you so much to those who replied. The overwhelming response was that the format of the materials inside the Club are still useful, even in these changed times. Many of you are sending home packets and are using printables from our Club.

When starting teletherapy, many of you have told me that you are loving the large format of our Articulation and Phonology cards.

Those who use the traditional Notebooks format have found it a great tool to give parents for home practice during closures.

In this edition we highlight the wide range of options available to you for Summer, and we are sure that you will find something to spark a little joy in your new routine! Some of you are already off for the Summer of course. If that's you (and I'm a little jealous I admit), relax and enjoy your break. You have earned it for sure!

Do reach out and let me know if there is anything you would like me to consider adding to the Club for the new school year, I'm always open to feedback and to hear what you need.

*Kathryn*
