

## Assembly Instructions & Suggested Use

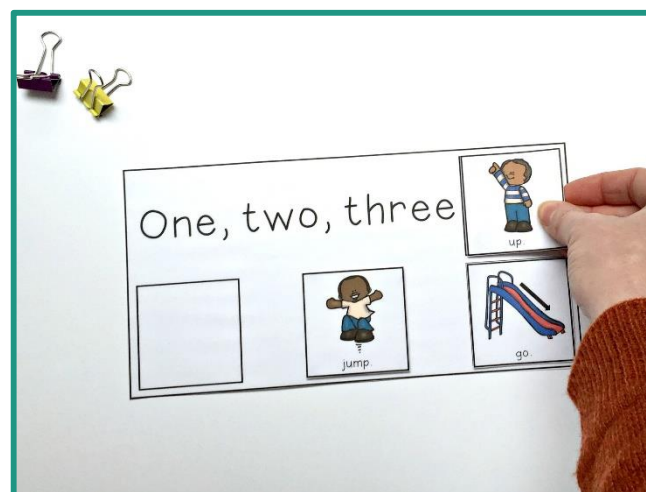

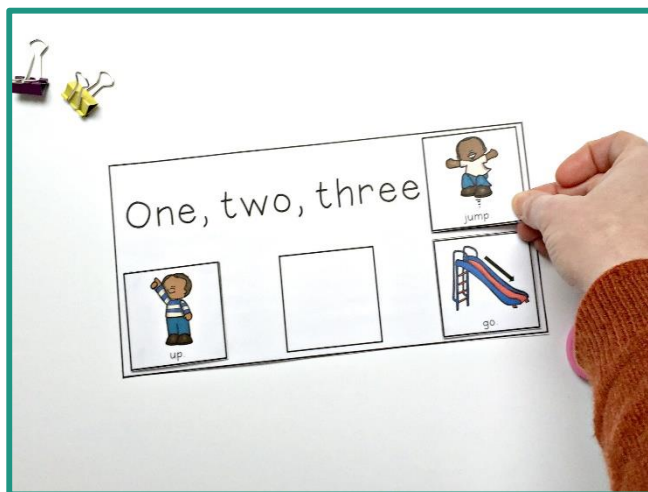

1. Cut and laminate your sentence board and cards. Both color and black line versions have been included to reduce printing demands.

2. Use Velcro dots or sticky tack to attach the cards into the 3 blank spaces on the sentence boards.

3. Let the child choose a card and stick it to the space at the end of the sentence as he/she practices each phrase.

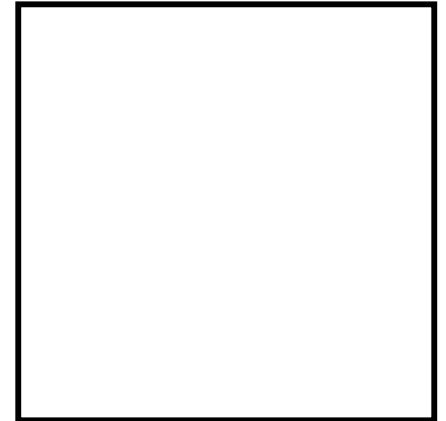

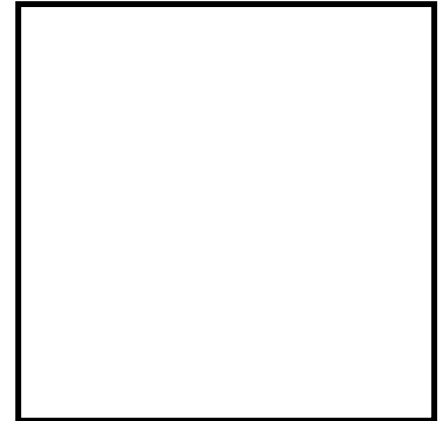

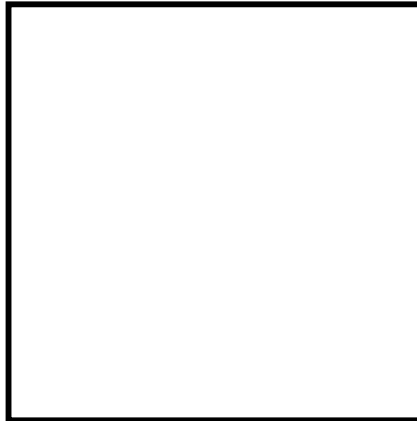

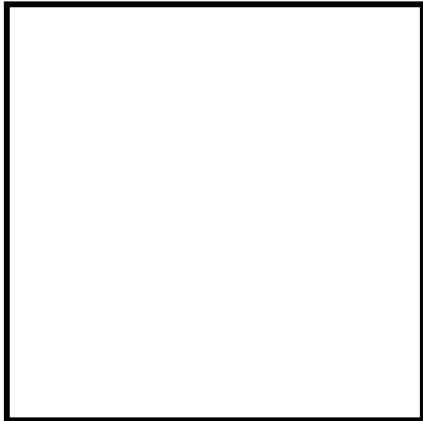

Use the blank cards to personalize the sentence board for individual students.

Try to choose meaningful targets to help elicit repetitions of each word.

I like

chips.

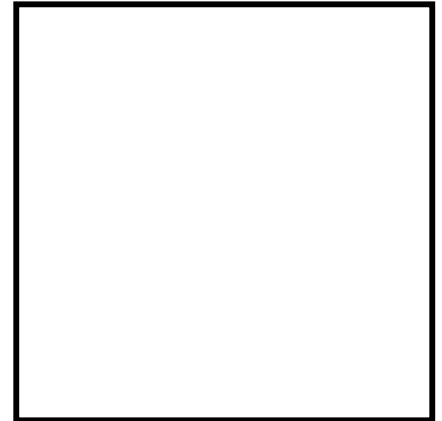

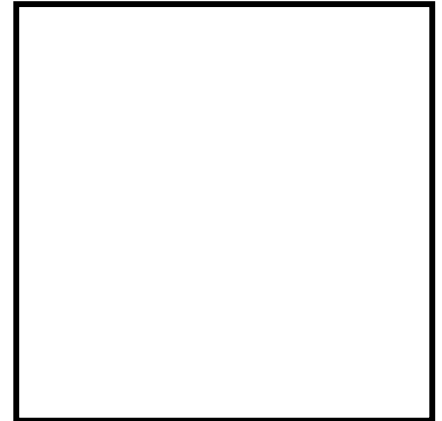

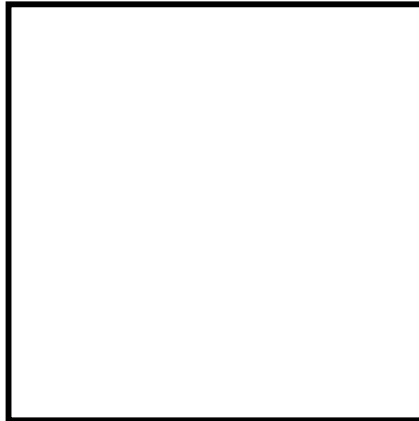

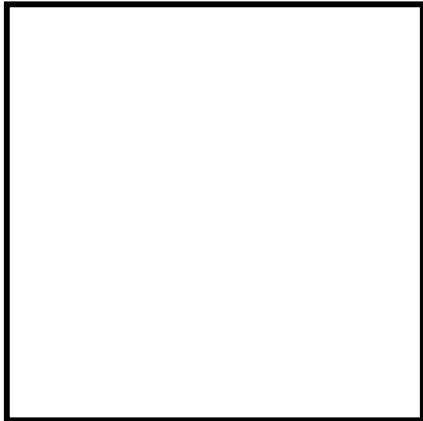

football.

friends.

# Wash your
