

# Feed the Monkey Game

Laminate and cut out the articulation cards. Cards are borderless and can quickly be cut on a paper trimmer or with scissors.

Laminate and cut around the monkey and banana images.

Build your game by attaching the monkey to a box or other container and carefully cut a hole the same size as the monkey's mouth using a box knife.

Time to have some fun!

Have your students say the word on each articulation card. When they say the word correctly reward them by letting them "feed" the monkey a banana.
